Profile Summary

Result-driven Computer Science undergraduate with hands-on experience with programming languages such as JavaScript, Java, SQL. Actively exploring Generative AI, LLMs, and problem solving through ML, with a keen interest in building, prototyping, using computer science principles.

Experience

DSA Problem Solving Intern (Java) — Remote Feb - Present 2026
Apna College

- Mentored students and solved DSA problems ranging from basic to advanced using Java.
- Focused on writing clear, efficient, and optimized solutions.

Technical Content Intern (UI/UX Team) — Remote Mar - Apr 2026
i8CLOUD Consulting

- Created and structured technical content on UI/UX concepts, design principles, and product usability.
- Assisted in documenting workflows, design guidelines, and educational resources for learners.

Microsoft Learn Student Ambassador (MLSA) — Remote Jan - Dec 2025
Microsoft Learn Community

- Guided students on Microsoft Learn paths covering Azure, AI, GitHub, and cloud fundamentals.

Skills

Programming	Java, C, Python, SQL
Machine Learning & AI	Machine Learning Fundamentals, Applied ML, Generative AI
Web & Software	JavaScript, React.js, Tailwind, Redux-Toolkit, Node.js, Express.js, MongoDB, APIs
Foundations & Tools	OOPs, DBMS, OS, Git/GitHub, LeetCode, Dev-tools

Projects

Assessly — AI Assessment Platform [Live](#) | [GitHub](#) May 2026

- Built a **MERN-based platform** for AI-powered assignment creation, class management for educators.
- Integrated **LLM APIs and WebSockets** for automated question paper generation and real-time workflow updates.
- **Tech Stack:** React, Redux, Node.js, Express, MongoDB, WebSockets, LLM APIs

TraveX — Smart Travel Discovery Platform [Live](#) | [GitHub](#) 2024 – 2025

- Built a **full-stack travel platform** with **Leaflet.js**, implementing a booking system with email notifications.
- Implemented **location-based listings**, improving discoverability by **35%**.
- **Tech Stack:** Node.js, Express.js, MongoDB Atlas, Cloudinary, Leaflet.js, HTML, CSS, EJS

Education

B.Tech – Computer Science and Engineering 2023 – Present
Dr. A.P.J. Abdul Kalam Technical University, UP CGPA: 8.3/10

12th (Science PCM) 2021 – 2022
CBSE Board, New Delhi 80.4%

Accomplishments

Code Charades Hackathon (Geeks for Geeks SRMCEM) 2025

- Ranked among the top 3 teams out of 50+ by building a web platform for vendors to showcase and sell practical lab apparatus to educational institutions.

Smart India Hackathon (SIH) — Internal Qualified (2x) 2024 – 2025

- Selected in the internal rounds of SIH 2024 and 2025, demonstrating strong problem-solving, ideation, and teamwork skills.
